How do we prepare Sydney's food system for the future?

We are calling on food systems innovators and community members in the City of Sydney to envision the future of food in Sydney and map current food innovation.

What works and why does it work?

**Are you a member of a community garden? Food waste collective?
Innovative food business or charity?**

We want to hear from you.

[Charles Sturt University](#), the [City of Sydney](#) and [Deliberately Engaging](#) are inviting you envision the future of food in Sydney as part of a knowledge exchange community grant scheme. Together we will create a public open-source food systems innovation map of the City of Sydney LGA.

You are warmly invited to come and contribute your thoughts, ideas and experiences and build a Sydney food innovator network.

This workshop contributes towards a larger study into urban food systems innovation and will link with the global [Urbal Study](#)

This study has been approved by the Charles Sturt University Human Research Ethic Committee Protocol number: H21466.

You can contact the Chief Investigator, Dr Sarina Kilham at skilham@csu.edu.au or on 0269332385 with any questions.

Online Workshops

For Food Innovators

11.00am, Tuesday
02 August, 2022
