Rural Sustainability in the Urban Century

XV World Congress of Rural Sociology

19-22 July 2022, Cairns, Australia

Whose versions of sustainability count in the urban century? How does spatial disadvantage intersect with injustices based on gender, ethnic, linguistic, religious and other dimensions of social difference? What opportunities do flows of people, capital, information and commodities between urban and rural spaces present for sustainable rural development?

As a delegate to the 2022 World Congrss of Rural Sociology, you will consider these and many other questions relevant to contemporary rural society.

Our venue, Cairns, sits on the traditional country of the Gimut Yidinji and Yirrigandji peoples. Sandwiched between two World Heritage Areas - the Great Barrier Reef and the rainforests of Tropical North Queensland - and with a vast rural hinterland, Cairns is a hub for tourism and tropical agriculture at the heart of the Asia Pacific.

For information on key dates, session and paper submissions, travel and accommodation, registration and tours, check the Congress website.
